

6-8-17

To whom it may concern:

Butler Health System has been working with Ford Business Machines for the past 7 years, and in that timeframe Ford has become more than just a vendor that we can trust. Knowledgeable and up to date on HIPPA, they have become our advisors on what is the newest in office technology, especially for the medical field, and we look forward to our continuing relationship with them for years to come.

Respectfully submitted,

Robert Wissinger
